Senate Routine.
WASHINGTON, Feb. 27. — The senate turned today from the stirring theme of Cuba to the commonplace appropriation bills, giving the entire day to the postoffice bill. There was a somewhat sensational diversion when Mr. Dubois of Idaho made a statement warning his former republican associates that could not control the next senate and that the silver republicans would never co operate with them while they clung to the single gold standard. The debate on the catoffice bill was mainly on the question investigation into the cost of carrying he mails on the railroads.

Vigorous Protests Against Cleveland's Forestry Reserve Order.

STRONG RESOLUTIONS ADOPTED AT LEAD

Declare Its Effect Will Be to Drive Out Ten Thousand Miners from the District and Ask for Its Suspension.

LEAD, S. D., Feb. 27.—(Special.)—President Cleveland's proclamation, setting aside nearly 1,000,000 acres of land in the heart of the Black Hills, as a forestry reservation, has caused much consternation in this city among mining men. That it will work a hardship upon every one in this region is generally conceded, and mass meetings have been held in all of the cities in the Hills to petition the president to revoke his order. Tha mass meeting held in Lead was presided over by Major Jenkins. Addresses were made by Superintendent Grier, of the Homestake company, and many other prominent mining men, deprecating the president's proclamation. A committee, consisting of Joseph B. Moore, George Scott, Tim Foley, E. C. Lashley and W. E. Smead, drew up the following telegram, which was forwarded:

To His Excellency, Grover Cleveland, President of the United States, Washington, D. C.: Your order of February 22, setting aside as a forestry reservation nearly 1,000,000 acres of land in the Black Hills of South Dakota, will. If allowed to remain in full force and effect, put an end to the precious and valuable metal mining in this state, and drive 10,000 miners with their families hence and completely ruin all other and dependent industries in this region. If within your power, we, the citizens of Lend, S. D., in mass meeting assembled, pray you to suspend the operation of your proclamation as far as the Black Hills of South Dakota are concerned until a thorough examination of the land reserved can be made, and the matter bafully placed before you in its true light.

The reservation in the Black Hills includes following telegram, which was forwarded:

The reservation in the Black Hills includes all the territory between a point fourteen miles south of Deadwood, on the north, and the Bouck liquor license bill, which of his staff, left for Washington today to a point near Buffalo Gap on the south; adopted practically as it came from attend the inauguration of President-elect bounded on the west by the Wyoming-South pakota state line, and on the east by a line near Rapid City. It will be thirty-six miles wide and forty-eight miles long. The proclamation makes it impossible for

any timber to be cut from this reservation, and, of course, works a severe hardship upon all miners and prospectors. The great Home-stake company, in this city, will be especially effected by the order, as it secures all of its vast supply of timber from this region.
It was thought that an united and immediate protest might cause the president to revoke his order. Otherwise, the Black Hills seople will endeavor to secure a special act f congress to set aside the order, or, at any that part affecting the Black An executive committee, to have full charge of the matter, is made up of the following prominent Lead citizens: H.
